SIX OFFICERS WOUNDED IN ANTI-SMUGGLING OPERATION IN HALIFAX

From Ben Matthews, journalist

Halifax, Canada. The RCMP and the Halifax Consulate Police (HCP) have carried out a massive anti-smuggling operation in the Halifax port last night. Thousands of illegal weapons have been seized, including military grade assault rifles, machine guns and explosives. RCMP commissioner George Martin confirmed this morning that 4 HCP officers have been wounded during a skirmish with smugglers. Two suspects were killed and 16 were arrested during the operation.

Commissioner Martin suspects that the confiscated weapons were from Macedonia, which is just coming out of a bloody civil war. The weapons abandoned by the Serbian military and Militech Security forces in the country can now be found trafficked in great numbers all over the international black market. More details at 6 PM.
